Inggried (21), a penultimate undergraduate student in Information Systems and Technology at ITB and a 5x Anugrah Citra Ganesha Awardee. Experienced in consulting projects across various industries through project engagements and internships. Recognized with 10+ national and international business case competition wins, with strong capabilities in problem structuring, analytical thinking, and technology-driven solution development.

EDUCATION

Institut Teknologi Bandung, B.E, Bachelor of Engineering

Bandung, Indonesia

Information System and Technology | **CGPA:** 3.38/4.00 (106 credits)

Aug 2023 / Dec 2025

- 5x Ganesha Karya or Anugrah Citra Ganesha Awardee (2024 - 2025)
- **Relevant coursework:** II221 Enterprise Requirements Analysis [[project](#)], II3130 Enterprise Architecture [[project](#)], IF2040 Database Modeling [[project](#)], II4013 Data Analytics [[project](#)], II4012 AI for Business [[project](#)]

WORK EXPERIENCES

Information System Laboratory

Bandung, Indonesia

Laboratory Assistant

Sep 2025 - present

- Led a team of 6 assistants as Assistant Coordinator for II221 Enterprise Requirements Analysis, overseeing the design and coordination of major assignments, coursework, and evaluations for 150+ students.
- Selected as 1 of 12 assistants from 90+ applicants through a competitive three-stage selection process for the Information Systems Laboratory.

Impetus Strategy

Riyadh, Saudi Arabia

Analyst & Consulting Intern

Aug 2025 / Feb 2026

- Worked directly under Managing Partner and Associate Principal to synthesize qualitative and quantitative insights into structured frameworks, presentations, and reports.
- Worked alongside global teams across the Middle East, Malaysia, and Indonesia to support 4+ project tenders and deliver 6+ impact consulting engagements for high-profile clients, including the Indonesian Ministry of Health and Paragon Corp.

Inkubator IT

Bandung, Indonesia

IT Project Manager

Dec 2024 / Jun 2025

- Contributed to the planning and scoping of 2–3 IT projects (worth IDR 10M - 30M), gaining hands-on experience in requirement analysis, project charter development, sprint planning, and cross-functional coordination.

Lumine

Jakarta, Indonesia

Vice Project Consultant Lead

Mar 2025 / Sep 2025

- Selected as 1 of 2 VP Consultant Leads for Lumine x ShARE ITB, leading 5 associates to build a scalable mentor acquisition strategy, achieving ~95% alignment with platform standards.

HONORS & AWARDS

[International] 15th Indonesian Students Mining Competition (ISMC XV) Hackathon, 1st Winner

Feb 2026

Developed TAMENG, a mobile Edge AI tool that detects underground cracks and generates real-time safety alerts.

[International] ShARE International Business Case Competition, 1st Honorable Mention

Feb 2026

Top <1%. Built an AI–MES smart manufacturing system for EY and an end-to-end O2O solution for Unilever.

[International] International Business Case Competition (IBCC) Brand UI 2025, 1st Runner Up

Dec 2025

Top 0.008%. Developed a localized Nivea Hydra product and led its rebranding and launch strategy.

[International] International Business Solution Competition (IBSC) 2025, 1st Runner Up **Nov 2025**

Top ~2%. Designed an insurance penetration strategy for lower–middle semi-urban markets.

[National] Gandeng x TBS Renewable Energy Ideation Challenge 2025, 1st Runner Up **Nov 2025**

Top ~1%. Designed BioSync, a solar-powered biogas system converting livestock waste into renewable energy.

[International] P&G PEAKathon 2025 from Indonesia, Top 5 Finalists **Nov 2025**

Top 0.08%. Developed an emotional storytelling-based market strategy for Oral-B targeting families and workers.

[National] Business IT (BizzIT) COMPFEST 17 2025, 1st Runner Up **Sep 2025**

Top <1%. Proposed ETS/XGBoost forecasting, DLS optimization, RBAC dashboards, and ADKAR management.

[International] EcoVation International Business Case Competition 2025, 1st Winner **Aug 2025**

Top ~1%. Designed IoT biofloc ECO-POND, and SmartGrow predictive QC for traceable shrimp farming.

[International] DWDG South East Asia Business Case Competition SHARE UGM, 1st Winner **May 2025**

Top <1%. Proposed EV shuttle ecosystem with AI route optimization, smart scheduling, and MaaS integration.

PROJECT EXPERIENCES

Web Scraping: IDX Stock Data Pipeline

April 2026

- Built a Python-based scraper to automate real-time data extraction for 15+ IDX-listed stocks from Yahoo Finance, capturing key financial metrics (price, market cap, volume, PE, EPS).
- Transformed and stored data into structured CSV files with error handling, enabling efficient analysis and financial modeling workflows.

Energy Consumption Prediction in Educational Facilities

April 2026

- Conducted end-to-end analysis of campus energy consumption data, performing data quality checks, winsorization for outlier handling, exploratory data analysis (EDA), and correlation analysis to understand relationships between environmental variables and energy usage.
- Built Linear and Huber regression models to predict energy use, improving robustness to outliers and informing data-driven decisions.

TAMENG: Tambang Monitoring & Early Warning System

Jan 2026

- Led the development of TAMENG, an Edge AI–powered early warning system for underground mining, leveraging computer vision (U-Net + MobileNetV3) to detect rock cracks, quantify geotechnical risks, and deliver real-time, offline risk assessments aligned with TARP.
- Won 1st Place (Champion) at ISMC XV Hackathon by delivering a data-driven safety solution that enhances underground risk monitoring and supports decision-making in low-connectivity, high-risk mining environments.

Circular Economy Solutions to Reduce Water Consumption in AI Technology

Dec 2024

- Developed a consulting project on circular solutions to reduce water use in AI data centers, analyzing PUE–WUE trade-offs and designing a phased roadmap (using AI cooling, IoT, and renewables) achieving up to 50–70% savings, earning “Best Consulting Presentation.”

SKILLS & OTHERS

Language: English (*Proficient*), Indonesia (*Native*)

Programming Language: SQL (MySQL & PostgreSQL) [[link](#)], Python

Data Analytics Tools: PowerBI and Microsoft Excel

General Tools: MS Office (Word, Excel, PPT), Suites (Docs, Sheets, Slides), Figma, Canva, Archimate, Draw.io

Software & Collaboration Platform: Jupyter Notebook, Visual Studio Code, Github, Miro, Google Workspace

Skills: Problem-Solving, Analytical Skills, Product Management Solution Development, Strategic & Business Planning

Interest: Business Analysis, Data Analysis, Product Management, IT Consulting
